

If you see any cables that have been exposed on street lights always leave them alone as you might be electrocuted.

Do not climb on or play near pylons.

Do not climb on or mess around with any equipment at substations.

Never play on or near railway lines.

Never "urban explore" disused buildings as there may be electricity supplies that haven't been disconnected.

Look out for overhead power lines when flying a kite.

Never play near road works as workers may be working on or near exposed cables.

Look out for overhead power lines when fishing.
