

Northern Powergrid (Northeast) plc		Year of spend (from June 2017 to December 2020)					Total spend from 2017 to 2020	% across categories
Allocation report for the £300m Green Bond issued in 2020 (£ millions) - <i>currently being assured by a third-party</i>		2017	2018	2019	2020	2020		
ICMA BGP CATEGORY:	TYPE OF INVESTMENTS MADE:	Re-financing				New		
Renewable Energy	Connection of low carbon electricity generation sources to the grid	13.2	3.3	4.1	1.2	4.0	25.8	8.5%
Energy Efficiency	System improvements to improve energy losses, improve resilience & energy efficiency	33.5	51.9	61.7	19.1	43.5	209.7	69.2%
	Replacement of failed assets to improve energy losses, resilience & energy efficiency	1.3	2.3	3.2	0.3	1.7	8.8	2.9%
	Smart grid technologies	1.8	5.9	9.6	1.6	7.7	26.5	8.8%
Pollution Prevention and Control	Reduce fluid & gas losses that result in lower waste & greenhouse gas emissions	-	-	-	-	-	-	-%
Clean Transportation	Projects that would reduce greenhouse gas emissions from transports	-	-	-	-	-	-	-%
Environmentally Sustainable management of Living Natural Resources and Land Use	Undergrounding overhead lines in Areas of Natural Beauty	1.2	0.9	1.4	0.6	1.2	5.3	1.7%
Sustainable Water and Wastewater Management	Flood mitigation	1.1	4.9	4.2	0.9	2.0	13.1	4.3%
Climate Change Adaptation	Overhead line clearances responding to impact on local environment	2.0	3.5	4.2	1.3	2.8	13.9	4.6%
Eco-efficient/Circular Economy Adapted Products, Technologies & Processes	Extending the product life cycle of use of goods and/or materials	-	-	-	-	-	-	-%
Green Buildings	Buildings with specific BRREAM/LEED standards & environmental improvements	-	-	-	-	-	-	-%
