10 February 2022

To all PLA system users,

Changes to our Public Lighting Schedule of Rates for Yorkshire and Northeast.

To align with Local Authorities budgeting periods, we agreed that we would review our prices on an annual basis and inform you of any changes in the first quarter of the year.

Our prices have remained unchanged since April 2018, representing four years of inflationary increases that have not been passed on to our customers.

We carry out comprehensive reviews to ensure our prices remain cost-reflective of the services we provide. Following our latest review, we will be amending our prices for Yorkshire and the Northeast to reflect both inflationary increases and changes to our delivery practices.

The overall impact is a 13.6% increase to our prices - 19.22% in Yorkshire and 9.86% in the Northeast. A list of commonly used rates is included in this communication.

We will implement the new rates from 4 April 2022 and in line with our commitment to a single annual price review, these prices will be fixed until 1 April 2023.

As a user of our PLA system, you already benefit from reduced prices for our services. However, if you have any questions or would like to discuss this further, you can call us on 0800 011 3433.

Best regards
Northern Powergrid Connections Team

NORTHERN POWERGRID
